The Berkshire Country Club

Green Department Internship Program 2016

"I took in a lot of information in a short period of time. Interning at Berkshire Country Club required a lot of hard work, but every minute was well worth the time spent."

Ben Fuess
Brockport University

Green Department Intern Program
“Providing Real World Experiences While Continuing Education”

Intern Job Description

• Chemical and fertilizer applications.
• Record keeping
• Irrigation troubleshooting
• Hand watering
• Course setup
• General golf course maintenance.

About Berkshire Country Club

The Berkshire Country Club was first established in 1899. It wasn’t until 1928 that Willie Park Jr. finished the 18 hole golf course that the membership plays today. The club is thriving with the number of memberships increasing every year. Members enjoy several amenities such as golf, tennis, and swimming. Currently the greens department is undergoing a greens reclamation process in order to restore the greens back to their original Willie Park Jr. design. Other ongoing projects includes Tee Box Construction, Native Area installation, and planning towards a new irrigation system. The irrigation system could be installed as soon as 2016! The green team aims to provide Member-Guest playing conditions on a daily basis through mechanical and cultural practices.

Compensation/Benefits

• $9.75/Hour + OT.
• Apartment housing provided
• Uniform shirts + clothing allowance
• Continuing Education Seminars
• Golfing privileges
• Lunches provided.

“An internship at Berkshire Country Club has provided me the ability to gain hands on experience in all facets of golf course maintenance.”

Aaron Hawn
Brockport University

“My experience at Berkshire Country Club required hard work, yet provided a rewarding and knowledgeable experience.”

Brent Leonhardt
University of Colorado, Colorado Springs
